ECIJA Participates in the Escuela Libre de Derecho Alumni Breakfast

Last Saturday, April 5, Kaynicté Pérez, senior partner of the real estate practice at ECIJA Mexico, participated in the Escuela Libre de Derecho Alumni Breakfast, an event that brought together distinguished professionals to strengthen collaborative ties and promote the exchange of experiences in the legal field.

During the meeting, relevant topics were discussed: the role of women in the development of the legal profession, the challenges facing new generations of female lawyers, and the importance of promoting spaces for leadership and active participation in all sectors. It was especially enriching to hear the attendees' reflections and proposals on the future of the legal profession in Mexico.

Kaynicté thanked the event organizers for providing a space for open dialogue, where the value of commitment and professional ethics were highlighted in building a more equitable and solid legal community.

At ECIJA Mexico, we celebrate the participation of our talented team in these initiatives, which strengthen our ties with academia and reinforce our commitment to the professional development of our lawyers.
